GENERAL INFORMATION – Continued

63. Firm Gas Demand Response (“DR”) for Commercial, Industrial and Multi-Family Customers - Continued

“Network” A network is a gas distribution network or load area designated by the Company. Furthermore, the boundaries may be distinct among the Gas DR programs.

“Performance Factor (PF)” Percent value assigned to each account based on a 3-event rolling average of Event Performance. The Performance Factor will be applied to Customer’s monthly incentive payment at the close of each month. All new Customers and Third-Party Aggregators will start the season with an assumed 100% PF; however, the Event Performance during the first event or test event will retroactively apply to any prior months when no events occurred. PF will carry over from prior winter for returning Customers.

“Performance Payment” is a type of incentive payment equal to the applicable Performance Rate multiplied by the verified daily quantity of natural gas curtailed by a Customer during a Demand Response Event.

“Performance Rate” is the eligible incentive payment per dekatherm of natural gas curtailed during a Demand Response Event. It can vary by the program option a customer is enrolled in.

“Program” means the Natural Gas Firm Demand Response Program offered by the Company to eligible Customers.

“Program Month” means each calendar month during the Demand Response Season.

“Program Option” refers to the commitment type that a customer who wishes to enroll in the Companies Demand Response Program must choose. Each Program may have one or multiple Program Options. These options vary in aspects such as hours, curtailment methods etc.

“Reservation Payment” Payment equal to the enrolled event dekatherm reduction multiplied by the Reservation Rate and adjusted by the then applicable Performance Factor for each month of the winter season.
