LEAF: 138.66
REVISION: 1
SUPERSEDING REVISION: 0

GENERAL INFORMATION – Continued

63. Firm Gas Demand Response (“DR”) for Commercial, Industrial and Multi-Family Customers – Continued

Following the submission of an application, customers may be contacted for additional information or to arrange the installation of hourly metering and, if applicable, DLC equipment.

Customers who elect the Direct Load Control option but did not have DLC capability the prior season will be encouraged to apply as early as possible.

3. Aggregators

Customers may participate in either the Load Shedding DR program or Load Shifting DR program options directly with National Grid (as a Direct Participant) or through a Third-Party Aggregator. A direct participant may self-aggregate multiple individual accounts if the organization is not acting as a third-party aggregator.

A Third-Party Aggregator is an entity that aggregates accounts and represents load and is responsible for the actions of its customers with respect to the Company’s DR programs. Such an entity may also assist customers and property owners/managers with DR program participation. Third-Party Aggregators may have one or more accounts enrolled in the Company’s Commercial, Industrial, and Multi-Family Programs during a given season. Third parties applying on behalf of one or more customers must provide Letters of Authorization granting access to submit an application and/or receive program incentives on the customer’s behalf. Third party Aggregators may also be required to provide additional documentation to receive customer data from the Company. Third-Party Aggregators must provide customer contact information to the Company, if requested. Third-Party Aggregators may also be required to have sales agreements with the customers they enroll in a Demand Response Program. Third-Party Aggregators may also be required to reconfirm participation with customers annually to avoid enrolling a customer who has switched to a different aggregator.
