

PSC NO: 12 – Electricity
Consolidated Edison Company of New York, Inc.
Initial Effective Date: 02/27/2022

Leaf: 17.1
Revision: 6
Superseding Revision: 5

PASNY DELIVERY SERVICE

General Provisions - Continued

Standby Service and Standby Service Rates - Continued

General Rule 20.4.6 is amended as follows:

The following text replaces General Rule 20.4.6: The output of the generating facility must supply the Standby Service accounts of a single PASNY Customer (“Single Party Offset”). Alternatively, the output of the generating facility must supply the Standby Service accounts of two or more PASNY Customers (“Multi-party Offset”), provided all of the following conditions are met: (i) the PASNY Customer that owns or operates the generating facility (the “Sponsor”) must be the PASNY Customer on at least one of the Standby Service accounts, and that account must have a Contract Demand equal to 10 percent or more of the nameplate rating of the generating facility; (ii) the Standby Service accounts supplied by the output of the Sponsor’s generating facility (“Recipient Accounts”) shall have no other source of generation located on the premises, except as permitted under General Rule 8.2 of the Schedule for Electricity; (iii) the Sponsor and/or its representative will be responsible for coordinating the interconnection and operation of the generating facility with the Company; and (iv) at the time of application under the Multi-party Offset, the Sponsor or its representative must submit a signed PASNY Multi-Party Offset Percentage Allocation Form, available on the Company’s website. Billing will be issued to PASNY for the Standby Service accounts designated by PASNY or the Sponsor and for the account associated with export of the generating facility.

In General Rule 20.4.6(a)(6), the Output Meter will be furnished and installed at PASNY expense.

The following text replaces General Rule 20.4.6(c): Accounts Supplied by the Generating Facility’s Output: Each account supplied by the generator’s output must be eligible for billing under Rate III or Rate IV of this Rate Schedule and must be billed under the Standby Service rate applicable to that individual account. No account served under General Rule 20.4.6 may be served under any of the economic development programs specified in General Rule 11. At least one of the Standby Service accounts must be connected to the Company’s low-tension distribution system.

Paragraph 2 of General Rule 20.4.7 is replaced by the following: Billing will be issued to PASNY under Standby Service rates, as modified below: (a) There will be an additional Customer Charge of \$50.00 per billing period, exclusive of the Increase in Rate and Charges, to cover incremental billing and administrative costs associated with providing service under this provision; and (b) any excess kW export from the service connection to which the PASNY Customer’s generating facility is connected will be netted against the usage on the PASNY Customer’s other service connections on an interval metered basis. The Company will not provide kilowatthour credits for the generator’s output.
