GENERAL INFORMATION - Continued

Firm Gas Demand Response ("DR") for Commercial, Industrial and Multi-Family Customers - Continued

a. Performance Factor

The Performance Factor is a percentage value assigned to each Customer account or aggregation based on a 3-event or test event rolling average of Event Performance. For a new account or aggregation that has not participated in 3 or more historical events commencing enrollment, the Performance Factor will be calculated based on the average Event Performance for all historical events where the account was eligible to participate. The Performance Factor will be applied to and adjust a Customer's monthly Reservation Payment at the close of each month.

For returning customer accounts or aggregations, the starting Performance Factor will be equal to the calculated Performance Factor as of the close of the prior season. Each subsequent event during the season will adjust the Performance Factor used in monthly Reservation Payment settlements.

New customers or aggregations will begin the season with an assumed Performance Factor of 100%, but the Event Performance during the first event or test event will retroactively apply to any months where no events occurred.
