GENERAL INFORMATION – Continued

63. Firm Gas Demand Response (“DR”) for Commercial, Industrial and Multi-Family Customers - Continued

“Performance Payment” is a type of incentive payment equal to the applicable rate per dekatherm of natural gas curtailed by Customer during a Demand Response Event.

“Hourly Demand Response Program” or “Hourly DR Program” is a program for firm Commercial, Industrial and Multi-Family customers who shift gas loads out of a 4-hour peak period window on event days. Hourly Demand Response Program Customers are restricted from using a fossil fuel backup non-gas heating fuel source to reduce load during demand response events.

“Incentive Payment” means a payment paid to the Customer for its qualifying participation, as determined by the Company. It is defined as the sum of potential Reservation Payment and Performance Payments.

“Metering Equipment” means the Company-owned meters and any other related equipment or items that are owned by the Company and installed at the applicable Customer Site for the monitoring of natural gas flow and usage or controlling gas equipment.

“Network” A network is a gas distribution network or load area designated by the Company. Furthermore, the boundaries may be distinct among the Gas DR programs.

“Performance Factor (PF)” Percent value assigned to each account based on a 3-event rolling average of Event Performance. The Performance Factor will be applied to Customer’s monthly incentive payment at the close of each month. All new Customers and third-party Aggregators will start the season with an assumed 100% PF; however, the Event Performance during the first event or test event will retroactively apply to any prior months when no events occurred. PF will carry over from prior winter for returning Customers.

“Program” means the Natural Gas Firm Demand Response Program offered by the Company to eligible Customers.

“Program Month” means each calendar month during the Demand Response Season.
