Revision: 3  
Superseding Revision: 2

## PASNY DELIVERY SERVICE

### General Provisions - Continued

#### Net Metering and Value Stack Tariff for PASNY Customer-Generators - Continued

##### Metering:

- (1) The Company will employ net energy metering to measure and charge for the net energy supplied by the Company.
  - a. If: (1) the PASNY Customer requests metering equipment that is not required by the Company; (2) the PASNY Customer requires multiple meters in accordance with the SIR to be eligible to receive compensation under sub-section (5) in the Charges and Credits – Value Stack Tariff section of the Net Metering and Value Stack Tariff for PASNY Customer-Generators; or (3) the PASNY Customer makes a one-time election to change from Option 5.b.(i), or 5.b.(ii) to 5.b.(iii) of sub-section (5) in the Charges and Credits – Value Stack Tariff section of the Net Metering and Value Stack Tariff for PASNY Customer-Generators, any additional meters or equipment necessary to accommodate the change shall be installed at the PASNY Customer's expense.
  - b. If the PASNY Customer is billed under demand rates, the Company will select a metering configuration that enables it to credit the PASNY Customer for the kWhr supplied to the Company by the PASNY Customer and measure the peak kW delivered by the Company to the PASNY Customer.
- (2) PASNY RC Host Accounts, On-Site PASNY Customers and PASNY CDG Host Accounts are required to have interval metering with telecommunications capability for service under the Value Stack Tariff. If interval metering is not required for billing under the PASNY Customer's Rate Classification or if interval metering cannot be provided through the Company's deployment of Advanced Metering Infrastructure equipped meters, the PASNY Customer shall be responsible for the installation of the meter upgrade at the cost described in General Rule 17.6 of the Schedule for Electricity and shall provide and maintain the communications service pursuant to the section "Meters With Communications Capabilities" of this Rate Schedule.
- (3) As provided in General Rule 7.1 of the Schedule for Electricity, the PASNY Customer shall furnish, install, and maintain all meter equipment (except meters and metering transformers) and meter wiring. The Company will install the metering necessary to obtain the data required to credit the PASNY Customer for the kWhr and/or kW supplied to the Company.
