3. INTRASTATE INTEREXCHANGE SERVICES

3.2 SERVICE OPTIONS

3.2.32 Option 37 - (EZ Plan II)

EZ Plan II is a long distance switched service which provides customers with single per minute rates for both their inbound (8XX) and outbound (1+) access usage.

a) Rate Structure

EZ Plan II inbound and outbound calls are non-distance sensitive, usage based, and flat rated.

b) Usage Charges

EZ Plan II inbound and outbound calls are billed in six second increments with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

Customers may subscribe to EZ Plan II service on a month-to-month basis or subscribe to either a fifteen (15) or thirty (30) month term agreement. A Minimum Monthly Usage Level (MMUL) is required with each service plan offered. Beginning with the customer's second invoice, and for the remaining months of any service plan, the customer will be charged the difference between the gross account usage and the MMUL if the gross account usage is less than the MMUL.
