Effective Date: August 19, 2019

Section 3  
Leaf 124  
Revision: 0  
Superseding Revision:

### 3. INTRASTATE INTEREXCHANGE SERVICES

#### 3.3 LOCATIONS OF SERVICE

A. Option 1 (Allnet MTS)

Communications may originate from any location within the state of New York. Calls originated using a local access number from within the serving area of a Carrier's Terminal City may be assessed local message units by the local exchange carrier. Calls originated using a local access number from locations within the state of New York other than a Carrier's Terminal City may be assessed toll charges by another carrier for the distance between the customer's premise and the Carrier Terminal Location in the serving Carrier Terminal City.

B. Option 2 (Allnet Solution)

Communications via switched equal access may originate from any location within the state of New York served by Carrier. Communications via dedicated access may originate from locations within the state of New York where Carrier maintains a terminal location.

C. Option 3 (Premier)

Communications may originate from the following locations/NPAs: 212, 315, 516, 716, 718, and 914.

D. Option 4 (Maxcess I)

Carrier provided Dedicated Access Lines for Option 4 are available in cities where Carrier operates a Terminal Location.
