Superseding Revision:

### 3. INTRASTATE INTEREXCHANGE SERVICES

#### 3.2 SERVICE OPTIONS

##### 3.2.27 Option 32 - (Frontier Voice Virtual Private Network)

Frontier Voice Virtual Private Network (VPN) provides the Customer the functionality and capabilities of a private network through the use of shared and/or dedicated transmission facilities, which permits the Customer to establish a communications path between two Customer locations by using a Customer-defined Private Numbering Plan (PN□). The following call types are available to Frontier Voice VPN Customers:

- 1) Dedicated to Dedicated: provides PNP type calls between locations linked by dedicated access. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
- 2) Dedicated to Switched: calls originating from a VPN Customer's dedicated location and terminate on switched facilities either within or outside the Customer's PNP. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
