

PSC NO: 12 – Electricity  
Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 04/01/2020

Leaf: 17.10.2  
Revision: 0  
Superseding Revision:

## PASNY DELIVERY SERVICE

### General Provisions - Continued

#### Value Stack Tariff for PASNY Customer-Generators – Continued

##### Community Distribution Generation: - Continued

##### b. Requirements of CDG Hosts - Continued

The CDG Host must certify to the Company in the format specified in the CDG Program Procedural Requirements, both prior to commencing Value Stack Tariff service under CDG and annually thereafter, that: (1) for all but a Farm Operation CDG Project, its CDG Satellite Accounts with demands of 25 kW or greater receive, in aggregate, no more than 40 percent of the generator's output (as adjusted, if applicable, for dwelling units of CDG Satellite Accounts billed under SC 8 or SC 12 of the Schedule for Electricity or in multi-unit residential buildings served under this Rate Schedule); (2) for a Farm Operation CDG Project, each CDG Satellite Account is either a Farm Operation or the owner or employee of the Farm Operation; and, (3) the CDG Host meets creditworthiness standards and other requirements established by the PSC. The Company may notify the PSC if it becomes aware that a CDG project does not meet one or more of the PSC's requirements or if the CDG Host fails to provide annual certification.

A CDG Host that provides a Customer's name and account number to the Company (and such other information as the Company may require if it is unable to verify the Customer's account based on the information provided), as described in the Company's CDG Program Procedural Requirements, is certifying that it has written authorization from the Customer to request and receive that Customer's historical usage information and, upon enrolling a CDG Satellite Account, that it has entered into a written contract with such Customer. The Company shall not be responsible for any contractual arrangements or other agreements between the CDG Host and CDG Satellite, including contractual terms, pricing, dispute resolution, and contract termination.

The Company's CDG Program Procedural Requirements details the format and requirements for CDG submissions. Additionally, Addendum – UBP-DERS to the Schedule for Electricity and the Company's CDG Program Procedural Requirements set forth rules governing CDG Hosts. For CDG projects, a distributed generation provider must submit proof to the Company that its project has been registered with Department of Public Service Staff in accordance with the UBP-DERS. A CDG Host may not request termination or suspension of electric service to a CDG Satellite Account.

Service under this provision will terminate if a CDG Host is no longer eligible, if the CDG Host withdraws from CDG participation, or if the Company terminates service to the CDG Host Account. In such cases, the Account Closure provisions outlined in Charges and Credits – Value Stack Tariff paragraph (8) of this provision shall apply.
