

XO Communications Services, LLC
New York PSC – Tariff No. 4 - Telephone
Effective Date: December 4, 2019

Leaf 9
Revision: 1
Superseding Revision: 0

LOCAL EXCHANGE SERVICES

Effective September 10, 2019, the services in this tariff are no longer available to new customers. Moves, additions and changes will no longer be permitted for existing customers. For existing Federal, State and Local Government Agencies, and Educational Institutions, modifications to current service offerings will continue to be subject to the tariff.

1.0 DEFINITIONS

Advance Payment: Payment of all or part of a charge required before the start of service.

Authorized User: A person, firm, corporation or other entity that either is authorized by the Customer to use local exchange telephone service or is placed in a position by the Customer, either through acts or omissions, to use local exchange telephone service.

Anonymous Call Rejection: This feature allows subscribers with or without Calling Number Delivery and/or Calling Name Delivery to reject calls for which calling name/number display information has been intentionally blocked. Only calls for which the information has been blocked are rejected. If the display information is not available due to network restrictions or other reasons, the receiving customer premises equipment (telephone or adjunct)-if equipped-is presented with a message to indicate the unavailability of the calling information. Rejected calls are sent to a service provider announcement. An operator in case of emergency can override Anonymous Call Rejection.

Assume Dial "9": A system feature that eliminates the need for all Centrex users in the same Centrex group to dial an access level "9" to access the PSTN. All lines in the Centrex must be configured as Assume Dial 9 or none.

Auto Answer Back: The Auto Answer Back feature, when implemented on a Meridian Business set, allows any incoming call to the Primary Directory Number (PDN) of the set to be automatically answered after 4 seconds. Conversation takes place through a hands free unit. This feature requires the use of a hands free Meridian Business Set.

Automatic Callback: If Customer encounters a busy signal when calling another number, the called number will be automatically notified (called back) when the called station becomes idle.
