Consolidated Edison Company of New York, Inc.
Initial Effective Date: 07/01/2019
Issued in compliance with Order in Case 15-E-0751 dated 05/16/2019

Leaf: 152
Revision: 6
Superseding Revision: 4

GENERAL RULES

20. Standby Service and Standby Service Rates

Customers who take Standby Service are subject to all terms and conditions of this General Rule, including the Interconnection Charge, whether they are billed under Standby Service rates or Standard rates.

Customers who take Standby Service with on-site generation equipment having a total nameplate rating equal to more than 15 percent of their maximum potential demand served from all sources, or are Customers served under Section A.9 of Rider R, are required to be billed under Standby Service rates, unless they are exempt pursuant to General Rule 20.3.

Unless otherwise required to take Standby Service rates, or exempt from Standby Service rates pursuant to General Rule 20.3, demand-billed Customers under SCs 5, 8, 9, 12, and 13, with or without a generating facility, can elect to be billed under Standby Service rates (“Rate Choice Customers”). A Rate Choice Customer may elect to change its billing rate to or from Standby Service rates no more than once every 12 months. All such notices must be made at least 30 days in advance in writing. A Rate Choice Customer will be billed under Standby Service rates commencing with the first full billing period for which interval metering data is available subsequent to the Company’s receipt of notice of such election. Subsequent changes will become effective with the first full billing period. Rate Choice Customers served under Rider R, or who do not have on-site generation equipment, or have emergency generating facilities used for self supply pursuant to General Rule 8.2, are not subject to General Rules 20.2 and 20.7.

Unless the Customer is a Rate Choice Customer, General Rule 20 is not applicable to generating facilities that are: (1) used for emergency self-supply under General Rule 8.2; or (2) served under Rider R, except for Customers served under Section A.9 of Rider R.

20.1 Definitions and Abbreviations

- “Standard rates” refers to the rate under which the Customer would otherwise be billed if not billed under Standby Service rates.
- “Standby Service” means the delivery of power and energy that is used:
 - (a) to replace and/or supplement the power and energy ordinarily generated by means of a private generating facility on a Customer’s premises, or
 - (b) for Station Use by a Customer that is a Wholesale Generator. “Wholesale Generator” is a generator that delivers its output directly to the Company’s facilities for sale on a wholesale basis. “Station Use” means:
 - (i) power and energy is delivered over the Company’s distribution facilities at a voltage lower than 100 kV for the Customer’s use at its premises in connection with its generating facility; and
 - (ii) the Customer has provided written proof to the Company that it is registered with the NYISO under the provisions of the NYISO “ISO Market Administration and Control Area Services Tariff” (“Market Services Tariff”) to self-supply and net station power.
- “Standby Service rates” refers to the following Rates, as applicable: Rate III or Rate IV of SC 5, Rate IV or Rate V of SC 8, 9, or 12, or Rate II of SC 13.
