COMPANY: VILLAGE OF SHERBURNE  
INITIAL EFFECTIVE DATE: 12/1/2019

LEAF: 20  
REVISION: 0  
SUPERSEDING REVISION:

## PURCHASE OF RENEWABLE ENERGY FROM NEW DISTRIBUTED GENERATORS

### ELIGIBILITY:

Residential or non-residential customers who receive service under Service Classification No. 1, 2, 3, or 4 and own or operate Solar, Wind and/or Energy Storage Electric Generating Equipment with a rated capacity of no more than fifteen kilowatts (15 kW - cumulative maximum export) located and used at their premise. Qualifying Customers must install and operate the Solar or Wind Generating system in compliance with *New York State Standardized Interconnection Requirements and Application Process for New Distributed Generators Connected in Parallel with Utility Distribution Systems* which is attached to these tariffs as *Addendum-SIR*, and may be from time to time changed, amended and/or supplemented. This program will be available to qualifying customers on a first come, first served basis, until the total rated generating capacity for Solar, Wind, and/or Energy Storage Electric Generating Equipment owned or operated by the Customer in the Village of Sherburne's service territory is equivalent to 150 kW (one-percent of the Village of Sherburne's average system load).

### INTERCONNECTION COSTS:

Customers receiving service under this service classification will be responsible for 100% of necessary interconnection costs. An estimate shall be provided to applicants and (i) shall include the costs associated with any required modifications to the utility system, administration, metering, and onsite verification testing, as required under *Standard Interconnection Requirements* of this tariff and (ii) shall include the cost of installing any dedicated transformer(s) and other safety equipment, necessary to protect the safety and adequacy of electric service to other customers as required under *New York State Standardized Interconnection Requirements and Application Process for New Distributed Generators Connected in Parallel with Utility Distribution Systems* of this tariff – *Addendum - SIR*.

### METERING

The Village of Sherburne will provide one revenue meter for the purpose of billing. This meter will have bidirectional energy flow capability and will record both energy delivered and received by the Village of Sherburne. The charge for this meter will be included in the applicable monthly service charge.

### CUSTOMER CHARGES

The Customer will pay the rates and charges of the Customer's applicable Service Classification for energy delivered to the Customer by the Village of Sherburne.
