STAMPS:

**SERVICE CLASSIFICATION No. 19 (Continued)**

**Customer Responsibility (continued):**

- a. It is understood and agreed that as a condition of service hereunder Customers are required to transfer their fuel supply from gas to an alternate fuel source when the Local Outside Temperature reaches the Designated Interruption Temperature or there is a Company-initiated interruption, whichever occurs first.
- b. Unless otherwise expressly authorized by the Company in writing, a supply of alternate fuel sufficient to meet the Customer's fuel consumption needs for a period of ten (10) days is the minimum required standby alternate fuel supply at the beginning of the heating season.
- c. Customer will at all times maintain dual-fuel equipment and a sufficient standby alternate fuel supply throughout the heating season in the event that transfer off of natural gas is required pursuant to this Service Classification.
- d. Such dual-fuel equipment and all associated control devices, the installation and the subsequent operation thereof will be subject to the Company's inspection and requirements.
- e. Customer agrees to be solely responsible for the service, maintenance, repair and upkeep of all Customer-owned equipment, including dual-fuel equipment and all associated control devices. The Customer will not be responsible to maintain or repair Company-owned equipment. In maintaining or repairing its own equipment, however, Customer will be responsible to avoid damage to or disconnection of Company-owned equipment and to notify Company immediately of any such event. Customers with semi-automatic equipment are responsible for maintaining an alarm notifying them that the Designated Interruption Temperature has been reached and that a switchover to an alternate fuel is necessary. The Company assumes no responsibility for the adequacy of standby facilities and will not be liable for any loss, damage or expense, direct or indirect that may be incurred by the Customer or others in connection with or as a result of any curtailment or discontinuance of gas service pursuant to this Rate Schedule.
- f. The Customer agrees to permit access by the Company's employees or representatives at any time to the Customer's premises for the purposes of (i) inspection and testing all dual-fuel equipment and associated control devices, (ii) the measurement and verification of dual-fuel consumption and (iii) any necessary maintenance or repair of Company-owned equipment.
- g. The Customer agrees that the Company may measure fuel consumption in any reasonable manner, including but not limited to automatic recording devices ("telemetering").
