GENERAL INFORMATION – Continued

53. Electric Generator Revenue Reconciliation

The Company will reconcile the difference between the electric generator revenues included in revenue requirements and the actual revenues it recovers from the electric generators at the end of each 12-month period ending March 31st. The Company will reconcile the period from January 1, 2020 through March 31, 2020 to account for the time between the current calendar year reconciliation period and the new fiscal year reconciliation period. Any over or under recoveries for that period will be included in the following fiscal year annual reconciliation.

Electric generator revenues are delivery revenues received from customer taking service from SC 18 and SC 20.

The surcharge is being proposed to true-up actual revenue to the amount credited to the revenue requirement. The surcharge will appear on Statement of Electric Generator Revenue.

Any difference would be credited or surcharged to firm sales and firm transportation customers through the delivery rate adjustment (“DRA”) for the 12-month period starting July 1st.
