

PSC No: 120 - Electricity
New York State Electric and Gas Corporation
Initial Effective Date: May 1, 2019
Issued in compliance with Order in Case Nos. 15-E-0751 and 15-E-0082, dated September 12, 2018.

Leaf No. 117.49
Revision: 0
Superseding Revision:

GENERAL INFORMATION

42. Remote Net Metering (Cont'd)

D. Satellite Accounts

1. Must be held by the same customer and have an identical billing name, on property owned or leased by such customer.
2. The Company reserves the right to investigate/obtain proof that all designated accounts are held by the customer.
3. A Satellite Account may have more than one Host Account. The name plate rating of the Net Metered Generation Facility(ies) designated as Host Accounts to be applied to a Satellite Account shall not exceed 2 MW in aggregate, including the name plate rating of a Net Metered Generation Facility located at the Satellite Account.
4. A non-metered account may qualify as a Satellite Account if the Host Account is being compensated based on a monetary crediting methodology pursuant to Rule 40, Value of Distributed Energy Resources ("VDER").

E. Enrollment and Change Period

After the customer's initial application, the enrollment and change period is from January 1 through January 31. Any changes shall be effective with the initial Host Account billing after March 1. Remote Net Metering customers may submit a change request form annually during the change period to designate additional Satellite Accounts or delete existing active Satellite Accounts. The customer may also change the portion (percentage) of excess to remain at the Host Account once per year.

F. Calculation and Application of Net Metering Credits

1. In the event that the amount of electricity supplied by the Company during the billing period exceeds the amount of electricity provided by the Host Account's Net Metered Generation Facility to the Company during the same billing period, the Company shall charge the Host Account at the rates provided in the otherwise applicable service classification of the Host Account for the net amount of electricity supplied by the Company.
2. If more than one Host Account is designated by the customer and there is excess generation from more than one Host Account, the Company shall apply credits from the Host Accounts to the Satellite Accounts in the following order:
 - a. Grandfathered or Demand-billed Host Accounts participating in Farm Waste (Facility Located and Used for Farm Operations) or Farm Wind Electric Service Options;
 - b. Grandfathered or Demand-billed Host Accounts participating in Non-Residential Solar, Non-Residential Wind, or Micro-Hydroelectric Service Options;
 - c. Host Account participating in Fuel Cell or Farm Waste (Facility Located and Used at Premises) Service Options;
 - d. Any other non-demand-billed Host Accounts.
3. Application of Monetary Credits:
 - a. The credit applied to each Host Account shall not exceed the current electric delivery charges, and if applicable, Company supply charges.
 - b. Except for a Host Account with Fuel Cell and non-farm based Farm Waste generators, a Host Account that is entitled to retain monetary crediting, may opt out to select volumetric crediting if they submit a statement in writing to the Company. The Company will acknowledge the request for volumetric crediting to the Host Account. When a preference for volumetric crediting is not stated, the Company will assume that monetary crediting adheres if there is an entitlement to Grandfathering in accordance with this Rule.
