### 5.6 Private Fire Service

A. Customers desiring service connections of reasonable size to the mains of the Company, for private fire protection on their premises, shall make separate application for such service in writing. Such installation shall be in accordance with this Schedule, particularly the rules regarding the installation of service pipes, connecting pipes and facilities. Such service lines shall be used exclusively for fire protection purposes.

B. All private fire service lines are to be equipped with a meter or a double detector check valve with integral bypass meter. Water used for any other purpose, however, shall be billed at the consumption charges on Service Classification No. 1, 6 or 7 depending on the Customer's service classification.
