Rule 15 – Use of Service for Unlawful Purposes

The Company's services are furnished subject to the condition that they will not be used for any unlawful purpose. Service will not be furnished if any law enforcement agency, acting within its jurisdiction, advises that such services are being used or are likely to be used in violation of the law. If the Company receives other evidence giving reasonable cause to believe that such services are being or are likely to be so used, it may either discontinue or deny the services or refer the matter to the appropriate law enforcement agency.

Any person who uses or receives the Company's service, other than under the provisions of an accepted application for service and a current Subscriber relationship, may be liable for both the tariffed cost of the service received and the Company's cost of investigation and collection as determined by a court.
