

PSC NO: 9 GAS

LEAF: 341.3

COMPANY: CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

REVISION: 11

INITIAL EFFECTIVE DATE: 10/01/19

SUPERSEDING REVISION: 9

Issued in Compliance with Order in Case 18-G-0565 dated December 14, 2018

**SERVICE CLASSIFICATION NO. 12 - Continued
DUAL-FUEL SALES SERVICE (DFSS) - Continued****Miscellaneous Provisions – Continued****(D) Interruption of Service and Reserve Requirements For Interruptible and Off-Peak Firm Customers - Continued**

A Customer's failure to interrupt its use of gas due to inoperable dual-fuel facilities (excluding, for purposes of this paragraph, associated Customer-installed phone lines) counts as a violation towards the above-described two-violation rule except as follows. During each Winter Period, a customer's failure to interrupt the use of gas during a planned interruption due to documented inoperable dual-fuel facilities will not be counted as a violation provided that the Customer (i) notifies the Company within one hour of the failure of its equipment; (ii) repairs and makes operable its dual-fuel equipment within forty-eight (48) hours of the equipment's failure; and (iii) provides the Company with an affidavit or other sufficient documentation that it has repaired and made operable its dual-fuel equipment and immediately complies with the earlier of the ongoing interruption or a separate planned interruption. The Company will extend the 48-hour repair deadline to a period not to exceed seven (7) days provided the Customer demonstrates to the Company's satisfaction that such extension was necessary due to the unavailability of a part and its installation during such 48-hour repair period. All three conditions must be satisfied for this exception to the two-violation rule to apply. During the 48-hour repair period, or, if applicable, the extended 7-day repair period, the Customer will be subject to applicable unauthorized use charges, an alternate fuel or energy non-compliance charge, minimum charges and imbalance charges as set forth in this Service Classification, the Company's Sales and Transportation Operating Procedures, or this Rate Schedule (excluding the non-compliance charge set forth on Leaf 341.2 for inoperable dual-fuel facilities provided the Customer makes operable its dual fuel facilities within the applicable repair period). If during the Winter Period, a customer interrupted the use of gas, as required, during the first planned interruption, then the customer will be granted an additional one-time waiver subject to the customer meeting all of the requirements detailed in this section. This exemption does not apply to customers taking service under the Shut-Down.

Any Interruptible, Off-Peak Firm, Contract or Off-Peak Firm Industrial Customer who incurs two violations, under the Two-Violation Rule, during the current Winter Period will be subject to the Non-Compliance Charge for all gas consumed during the remainder of the current Winter Period commencing from the billing month in which the customer incurred the second violation and continuing until the end of the current Winter Period. This charge is in addition to the unauthorized usage charge and all other charges assessed for not complying with the terms of this Service Classification. Customers being charged under this provision will not also be charged under provisions (1) or (2) of this section.

Any Non-Critical Care Customer that incurs two violations during the current Winter Period and

- who did not incur two violations during the prior Winter Period, will be notified by the Company that they must either apply for Firm Service or must satisfy the conditions below in order to remain on interruptible service. If the Customer applies for firm service and the Company is unable to accept them as a firm customer, the customer may remain on interruptible service, only if the customer satisfies the conditions below.

(Service Classification No. 12 - Continued on Leaf No. 341.4)
