TELECOMMUNICATIONS SERVICES

SECTION 5 – LINGO PRODUCTS (CONT'D.)

(T)

5.1 Lingo Products (Continued)

(T)

5.1.3 Custom Calling Features (Continued)

L. Distinctive Ring

Distinctive Ring allows the Customer to establish up to two telephone numbers on the same access line and to distinguish calls to each number by distinctive ringing patterns. The standard ringing pattern applies to the billing telephone number, while the dependent telephone number receives a distinctive ringing pattern for incoming calls. Distinctive Ring is available to single line residential customers where facilities are available.

When a Distinctive Ring Customer also subscribes to Call Waiting, incoming calls to the billing telephone number will activate the standard Call Waiting tone. Calls to dependent telephone number will activate a distinctive Call Waiting tone. When a Distinctive Ring Customer subscribes to any Call Forwarding service, the dependent telephone number may be forwarded to the same number as the billing telephone number or receive no forwarding treatment.

M. Priority Call

Priority Call allows the Customer to preselect telephone numbers that can be given a distinctive alerting signal or ring. The Customer can create or change a list of telephone numbers by dialing an activation code. NOTE: Some telephones are only capable of providing a standard ring. Customers must contact the manufacturer or distributor of their telephone set if they have any questions.

N. Speed Calling

Speed Calling allows the Customer to dial selected numbers by means of an abbreviated code. This feature is available in either an 8 number or a 30 number capacity. The Speed Calling list can only accommodate a number consisting of 15 digits or less.
