

PSC No: 120 - Electricity  
New York State Electric & Gas Corporation  
Initial Effective Date: December 1, 2020  
Issued in Compliance with Order in Case No. 18-E-0130, dated September 17, 2020.

Leaf No. 117.54  
Revision: 0  
Superseding Revision:

## GENERAL INFORMATION

### 45. Term and Auto- Dynamic Load Management Programs (Cont'd)

#### B. Definitions (Cont'd)

##### Applicable to Both Programs (Cont'd)

“Company Designated Area” An electrically defined area determined by the Company to be approaching system capacity limits during peak periods.

“Direct Participant” refers to a customer who enrolls under Term- or Auto-DLM directly with the Company for a single account and agrees to provide at least 50 kW of Load Relief.

“Electric Generating Equipment” refers to: (a) electric generating equipment that is served under Service Classification No. 10 or Service Classification No. 11 and used to provide Load Relief under this Program; or (b) emergency electric generating equipment that is interconnected and operated in compliance with rules governing Emergency Generating Facilities used for self supply and used to provide Load Relief under this Program.

“Load Relief”: Power (kW) and energy (kWh): (a) ordinarily delivered by the Company that is displaced by use of Electric Generating Equipment and/or reduced by the Direct Participant or Aggregator at the Customer’s premises; or (b) produced by use of Electric Generating Equipment by a customer taking service pursuant to Service Classification No. 10 and delivered by that Customer to the Company’s distribution or transmission system during a Load Relief Period.

“Load Relief Period” refers to the hours for which the Company requests Load Relief during: (a) a Term-DLM Event, which can also include Auto-DLM participants; or (b) an Auto-DLM Event, provided, however, that Load Relief shall not be required under Auto-DLM between the hours of 12:00 a.m. and 6:00 a.m.

Portfolio Quantity: For each Aggregation of an Aggregator or Direct Participant, the amount of Load Relief measured in kW that the Aggregator or Direct Participant has agreed to provide based on the Program Agreement and any Early Exit fees paid in association with that Aggregation.

“Program Agreement” refers to the specific terms and conditions that apply to Aggregators and Direct Participants based on signed contracts associated with their Vintage Year.

"Sub-aggregation" means a subset of Customers represented by an Aggregator. An Aggregator may create Sub-Aggregations as specified in the Program Agreement for a given year.

“Test Event” refers to the Company’s request of either Term- or Auto-DLM for Direct Participants and Aggregators to provide Load Relief in order to test participants’ response to a request for Load Relief. The duration of a Test Event is one hour for both Term- and Auto-DLM. If a Test Event is called under Term-DLM, Load Relief shall be requested within the four-hour span of Contracted Hours. If called under Auto-DLM, Load Relief shall be requested at a time determined solely at the Company’s discretion but not between the hours of 12:00 a.m. and 6:00 a.m.

“Vintage Year” refers to the first Capability Period an Aggregator or Direct Participant is contractually obligated to participation in.
