6. Performance Factor - Continued

c. Performance Factors under DLRP

Individual event Performance Factor, when a Contingency Event is called, is the ratio of: (i) the average hourly kW of Load Relief provided during the first four hours of the Load Relief Period up to the stated kW of weekday or weekend Load Relief dependent on the day the event takes place to (ii) the stated kW of weekday or weekend Load Relief dependent on the day the event takes place.

Individual event Performance Factor, when an Immediate Event is called at 6 PM or earlier, is the ratio of: (i) the average hourly kW of Load Relief provided during the highest consecutive four hours during the first six hours of the Load Relief Period up to the stated kW of weekday or weekend Load Relief dependent on the day the event takes place to (ii) the stated kW of weekday or weekend Load Relief dependent on the day the event takes place.

Individual event Performance Factor, when an Immediate Event is called after 6 PM, is the ratio of: (i) the average hourly kW of Load Relief provided during the highest consecutive hours, two hours less than the length of the Load Relief Period, up to the stated kW of weekday or weekend Load Relief dependent on the day the event takes place to (ii) the stated kW of weekday or weekend Load Relief dependent on the day the event takes place.

d. Performance Factor when a Test Event is called under CSRP

Individual event Performance Factor, when a Test Event is called, is the ratio of (i) the average hourly kW of Load Relief provided during the test hours up to the kW of contracted Load Relief to (ii) the kW of contracted Load Relief.

e. Performance Factor when a Test Event is called under DLRP

Individual event Performance Factor, when a Test Event is called, is the ratio of (i) the average hourly kW of Load Relief provided during the test hours up to the stated kW of weekday or weekend Load Relief dependent on the day the event takes place to (ii) the stated kW of weekday or weekend Load Relief dependent on the day the event takes place.
