Blocking service is a feature that permits Customers to restrict access from their telephone line to various discretionary services. The following blocking options are available to residential and business Customers:

- A. 900, 700 Blocking - allows the subscriber to block all calls beginning with the 900 and 700 prefixes (i.e. 900-XXX-XXXX) from being placed.
- B. 976 Central Office Code Blocking - allows the subscriber to block all calls with a 976 central office code (i.e xxx – 976-xxxx).
- C. Third Number Billed and Collect Call Restriction - provides the subscriber with a method of denying all third number billed and collect calls to a specific telephone number provided the transmitting operator checks their validation data base.
- D. Toll Restriction (1+ and 0+ Blocking) - provides the subscriber with local dialing capabilities but blocks any Customer-dialed call that has a long distance charge associated with it.  
  
Toll Restriction will not block the following types of calls: 911 (Emergency), 1 + 800 (Toll-Free), and operator assisted toll calls.
