

PSC NO: 12 GAS  
COMPANY: CENTRAL HUDSON GAS & ELECTRIC CORPORATION  
INITIAL EFFECTIVE DATE: 04/01/20  
Issued in Compliance with Order in Case 20-G-0150 dated March 31, 2020

LEAF: 118.1  
REVISION: 8  
SUPERSEDING REVISION: 7

#### **41. RETAIL ACCESS PROGRAM** (Cont'd)

##### H. BALANCING AND SETTLEMENT (Cont'd)

###### Monthly Cash Out (Cont'd)

The monthly cash out prices will be as follows:

Over-deliveries: the Index Price used to determine the applicable rate shall be equal to the monthly average of the daily "Midpoint" rate of the lower of "Millennium, East receipts" and "Tennessee, zone 4-300 leg" receipt points as published in Platt's Gas Daily in the table "Daily Price Survey" under the Citygates heading, plus the Company's weighted average cost of transportation and fuel losses.

Under-deliveries: the Index Price used to determine the applicable rate shall be equal to the monthly average of the daily "Midpoint" rate of the higher of "Algonquin, city-gates" and "Iroquois, zone 2" receipt points as published in Platt's Gas Daily in the table "Daily Price Survey" under the Citygates heading.

Effective April 1, 2020 until such time that the Governor's Executive Order No. 202.8: Continuing Temporary Suspension and Modification of Laws Relating to the Disaster Emergency is lifted, any over- or under-delivery will be cashed out at the average of the over-delivery and under-delivery index prices shown above.

###### Single Cash Out Process

Central Hudson will continue to reconcile the gas supplies delivered and the natural gas consumed by customers taking service under Service Classification Nos. 6, 12 and 13. However, a revised cash-out process for the Retail Access program will be implemented effective April 2017, to cash-out, in any given month, those accounts with valid meter readings during the month.

At the end of the period, the Company will determine the over- or under-delivery, or net imbalance, for each Retail Supplier based on the Retail Supplier's customers' actual billed usage for the period. The sum of each Retail Supplier's customers' consumption will be multiplied by the factor of adjustment, converted from Ccf to Dth and compared to the Retail Supplier's total pool deliveries, inclusive of confirmed nominations, any daily and monthly imbalances, if applicable, and any WBSV. The Company will release this imbalance determination, and supporting detail, twenty-one (21) days after the end of each period.

Any resulting difference will be cashed out at the index prices shown above.

###### Semi-Annual Reconciliation/Cash Out

Central Hudson will reconcile the gas supplies delivered and the natural gas consumed by customers taking service under Service Classification Nos. 6, 12 and 13 twice per year; once for the seven months ending October 31 (Summer) and once for the five months ending March 31 (Winter).
