GENERAL INFORMATION - Continued

G. Miscellaneous - Curtailments

- (a) The Company will provide periodic updates to Energy Services Companies (ESCO) and curtailed customers as to the status of the curtailment event and the prospects for full service.
- (b) Failure of the Company to meet one or more of its obligations in a curtailment event is not a basis for ESCOs or Direct Customers not to comply with requirements of the curtailment, but may provide the basis for a complaint to the Commission regarding the Company's behavior.
- (c) If, during a curtailment period, the Company is aware of ESCOs or Direct Customers that are not responding to the required actions, it will make all reasonable efforts to inform the non-responding ESCOs and Direct Customers that required actions are not being taken. Lack of such notice shall not relieve any ESCO or Direct Customer of its obligations.
- (d) The Company will recover curtailment-related compensation costs from customers via the GAC or equivalent mechanism, subject to Commission review.

H. Firm Demand Response Program

During extreme weather and critical supply conditions, the Company will implement its firm demand response program. This program provides the Company with the right to call upon participating customers to curtail load when necessary. Participants in this program are large commercial, industrial, and multi-family customers selected at the Company's sole discretion. Under the firm demand response program, participants agree to curtail their natural gas consumption for a defined time period in exchange for an economic incentive.
