10. PRIVATE LINE SERVICE OFFERINGS

10.8 LOCAL ACCESS FACILITIES

A. General Description

In order to subscribe to the Company's data products with dedicated access, the Customer must gain entry to the Company's network by means of Local Access Facilities. Such Local Access Facilities will generally be ordered from local telephone companies in the customer's name, by the Company, as agent. The Company will bill the customer for these facilities.

Any special construction or non-standard charges assessed by the local telephone company supplying the Local Access Facility will also be the responsibility of the customer. On occasions when alternative facilities are necessary (those provided in lieu of Company-designated access provided facilities), the Company will charge the customer according to the rates and charges set forth in this Tariff unless Special Service Arrangements are involved as described in Section 12.1 of this Tariff.

The Company's scope of work for alternative access facilities may include, but are not limited to, detailed assessment or engineering studies, alternative vendor interface and installation supervision.

Central Office Connection charges apply in all cases in which a customer wishes to connect to the Company network. The applicable charges are determined based on the type of access interconnected

Access Coordination will apply in those cases where the Company acts as the customer's agent and orders Local Access Facilities. The applicable charges are determined based on the type of access ordered.

Local Access Facilities for 56 Kbps, T-1, T-3, OC-3, and OC-12 access require a minimum commitment period of one year, unless otherwise defined through a vendor-provided term plan offering (ordered by the Company on behalf of the customer via a letter of agency from the customer). Any termination liabilities incurred by the Company as a result of such plans shall be solely the responsibility of the customer.
