Q. Service Components and Rates

1. Channel Mileage Charges

The charge for intercity communications channels is based on mileage and channel bandwidth. Mileage is the intercity mileage between Company's Points of Presence as located in cities wherein the Company holds itself out to provide service. Each circuit connected between two customer interface points will be construed as an individual circuit for rate compilation purposes. The Minimum monthly recurring charge applies unless the actual intercity mileage when multiplied by the banded per mile monthly recurring charge exceeds the Minimum monthly recurring charge.
