### 3. CONSUMER LONG DISTANCE SERVICE OFFERINGS

#### 3.3 TRAVEL SERVICES

1. This Section sets forth the rates and charges applicable to the Company's Travel Service offerings. The total charge for each completed operator assisted call consists of the following charge elements:
  - a. A one-time fixed operator service charge added to the first minute of each operator service call, which will be dependent on the type of billing selected (i.e., Calling Card, Third Party), and/or the completion restriction selected (i.e., Person-to-Person);
  - b. A usage charge dependent on the duration, distance, and time of day of the call. The usage charge element is specified as duration, with a minimum charge for each call of one minute, and with fractional minutes of use thereafter counted as full minutes;
  - c. Other additional surcharges as provided herein (i.e., payphone surcharge, non-subscriber surcharge, location surcharge or other).

#### A. CenturyLink Calling Card - Residence

##### 1. General Description

CenturyLink Calling Card offers residential customers enhanced features and functions for use when traveling customers access the network by dialing a toll-free access number and an authorization code. To initiate a Calling Card call, the customer dials a toll free 800 number. The voice response unit ("VRU") then instructs the customer to input the authorization code, which is the customer's billed to number plus four digits. After the proper verification of the authorization code, the VRU guides the customer through the available options. Two pricing options are available.
