P.S.C. Tariff No. 2 – Private Line  
Effective Date: June 29, 2021

Leaf: 11  
Revision: 0  
Superseding Revision:

## Section 2 – GENERAL RULES AND REGULATIONS (Cont'd)

### 2.4. Responsibilities of the Customer

- 2.4.1 The Customer is responsible for placing any necessary orders for complying with Tariff regulations; for the placement of any stickers or tent cards provided by Company or as required by law; and for assuring that end users comply with Tariff regulations. The Customer shall ensure compliance with any applicable laws, regulations, orders or other requirements (as they exist from time to time) of any governmental entity relating to services provided or made available by the Customer to end users. The Customer is also responsible for the payment of charges for calls originated at the Customer's numbers which are not collect, third party, calling card, or credit card calls.
- 2.4.2 The Customer is responsible for charges incurred for special construction and/or special facilities which the Customer requests and which are ordered by Company on the Customer's behalf.
- 2.4.3 If required for the provision of Company's services, the Customer must provide any equipment space, supporting structure, conduit and electrical power without charge to Company.
- 2.4.4 The Customer is responsible for arranging access to its premises at times mutually agreeable to Company and the Customer when required for Company personnel to install, repair, maintain, program, inspect or remove equipment for the provision of Company's services.
- 2.4.5 The Customer shall ensure that the equipment and/or system is properly interfaced with Company facilities or services, that the signals emitted into Company's network are of the proper mode, bandwidth, power, and signal level for the intended use of the Customer and in compliance with the criteria set forth in this Tariff and that the signals do not damage equipment, injure personnel, or degrade service to other Customers. If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, Company will permit such equipment to be connected with its channels without use of protective interface devices. If the Customer fails to maintain the equipment and/or the system properly, with resulting imminent harm to Company equipment, personnel, or the quality of service to other Customers, Company may, upon written notice, require the use of protective equipment at the Customer's expense. If this fails to produce satisfactory quality and safety, Company may, upon five (5) days' written notice, via first class U.S. mail terminate the Customer's service.
