Superseding Revision:

Section 2 – GENERAL RULES AND REGULATIONS (Cont'd)

2.17 Emergency/Crisis/Disaster Restoration and Provisioning Telecommunications Service Priority (Cont'd)

2.17.6 Preemption

When spare facilities are not available, it may be necessary for the Company to preempt the facilities required to provision or restore a TSP service. When preemption is necessary, non-TSP services may be preempted based on the Company's best judgment. If no suitable spare or non-TSP services are available, the Company may preempt an existing TSP service to restore a TSP service with a higher restoration priority assignment. When preemption is necessary, prior consent of the service user whose service will be preempted is not required; however, the Company will make every reasonable effort to notify the preempted customer of the action to be taken.
