New street light installations will be LED-only. Replacements of failed existing Company-owned luminaires will be LED-only on a customer “opt-in” basis. Customers who opt-into the LED-only replacement program must notify the Company in writing of their intent to participate. Upon receipt of a customer’s written notification of intent, the Company will coordinate with the customer to identify the available LED luminaires that will be used to replace failed HID luminaires. The HID-LED Conversion Matrix provided in Table 4.2 provides a guide for customers seeking to understand the corresponding illumination output of available LEDs.
