5.8 LOCAL OPERATOR SERVICE (Cont'd)

5.8.1 Description of Services (Cont'd)

L. Call ID Per-Line Blocking

The calling party may prevent the display of their telephone number and name on a permanent basis by subscribing to Per-Line Blocking. This blocking option automatically prevents the display of the calling number and name for all calls placed from that line to a Call ID subscriber, unless the feature is deactivated. This service is limited to residential customers. If a subscriber of Per-Line Blocking chooses to deactivate blocking, the calling telephone number and name would be sent for that call only.

After the call is completed, the line automatically reverts back to the Per-Line Blocking feature. The deactivation of Per-Line Blocking is completed by dialing a special code prior to placing each call. The code to deactivate Per-Line Blocking is different than the one used to activate Per-Call Blocking. Call ID Per-Line Blocking will be available where facilities permit. The Per-Line Blocking option can only be added or removed from a customer's line by placing a service order with the Company. When this service is removed the line is automatically converted to the Per-Call Blocking capability. Call ID Per-Line Blocking does not prevent the delivery of telephone numbers to 911 emergency service providers.
