## LOCAL EXCHANGE SERVICES TARIFF

---

### SECTION 5 - SUPPLEMENTAL SERVICES (Cont'd)

#### 5.8 LOCAL OPERATOR SERVICE (Cont'd)

##### 5.8.1 Description of Services (Cont'd)

###### J. Call ID

Call ID and Call ID with Name Service may be provided to residence, business and PBX customers (if the PBX equipment is compatible with Call ID.) This feature allows a customer to see the telephone number of an incoming call displayed on the customer provided display unit. The telephone numbers that will be displayed on a Call ID subscriber's display unit include listed, non-listed and non-published numbers. Telephone numbers that will not be displayed are: (1) calls from customers who use Per-call Blocking or Line-Blocking (2) calls from customers located in central offices not a part of the SS7 Signaling System and; (3) calls placed through an operator.

Call ID service also provides a residential customer with the ability to reject calls from customers who have blocked the display of their telephone number on outgoing calls. This feature is called Anonymous Call Rejection (ACR) and can be activated and deactivated by dialing a specific code. There is no additional charge for ACR service.

###### K. Call ID Per-Call Blocking

Per-Call Blocking is automatically available to all customers served by the Company. This blocking option allows the calling party to block the passage of their telephone number and name on outgoing calls. To activate Per-Call Blocking a special code is dialed prior to placing each call. When this blocking feature is activated by the calling party, and they place a call to a Call ID subscriber, the subscriber's display unit will indicate that the incoming call has been blocked. There is no charge to activate Per-Call Blocking and the service is provided on an unlimited basis. Call ID Per-Call Blocking does not prevent the delivery of telephone number to 911 emergency service providers.
