

PSC NO: 10 – Electricity
Consolidated Edison Company of New York, Inc.
Initial Effective Date: 12/01/2017

Leaf: 212
Revision: 6
Superseding Revision: 5

GENERAL RULES

24. Service Classification Riders (Available on Request) - Continued

RIDER L - DIRECT LOAD CONTROL PROGRAM - Continued

C. Definitions - Continued

An “Event” may be declared by the Company when:

1. the NYISO declares an emergency in conjunction with an in-day peak hour forecast response to an operating reserve peak forecast shortage as defined in the NYISO Emergency Operations Manual, or in response to a major state of emergency as defined in the NYISO Emergency Operations Manual, or at the NYISO’s discretion to relieve system or zonal emergencies;
2. a Distribution Load Relief Program (“DLRP”), as defined under Rider T, event is called. A DLRP event is called when the next contingency on the Company’s system would result in a Condition Yellow or a voltage reduction of five percent or greater has been ordered. A Condition Yellow exists when the next contingency (excluding breaker failure) either will result in an outage to more than 15,000 customers or will result in some equipment being loaded above emergency ratings; or
3. a Commercial System Relief Program event is called as defined under Rider T.
4. the NYISO activates its program under the NYISO Installed Capacity procedures for Special Case Resources for day-time peaking networks.

“Room Air Conditioner” is an encased assembly designed as a unit to be mounted in a window or through a wall or as a console. It is designed primarily to provide direct delivery of conditioned air to an enclosed space, room, or zone. This definition excludes Packaged Terminal Air Conditioners.

“Service Provider” means a provider registered with the Company to develop, maintain, and operate a communications portal that enables Internet-connected Control Devices to participate under this Rider. A list of current Service Providers is available on the Company’s website.

A “Test Event” is called under Rider L to test participant responses to the signal sent to a Control Device. A Test Event may last up to four hours.

D. Applications

Customers or Tenants may apply to participate under this Rider throughout the year, either electronically, in writing, or by phone.
