SECTION 2 – REGULATIONS, (CONT'D.)

- 2.13 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.) (N)
- 2.13.2 TSP Request Process, (Cont'd.)
- B. Provisioning
- To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2.24.2.A above for restoration priority assignment except for the following differences. The user should:
- Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in 2.24.2.A.1 above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.
- Verify that the Company cannot meet the service due date without a TSP assignment.
- Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service, and include the head or director of a federal agency, commander of a unified/specified military command, chief of a military service, commander of a major military command, or state governor.
