SECTION 5 - SERVICE DESCRIPTIONS AND RATES

This section sets forth the rates and charges applicable to the Carrier's Services offering.

5.1 GENERAL

The total charge for each completed call is dependent on the duration, distance and time of day of the call. The usage charge element is specified as a rate per minute which applies to each minute of call duration.

Each completed call will be billed based upon a minimum initial call duration with additional fractional use being rounded up to the next full time increment. Calls originating in one time period and terminated in another will be rated according to the portion of the call applicable to each time period.
