

P.S.C. NO. 3 ELECTRICITY**ORANGE AND ROCKLAND UTILITIES, INC.**

INITIAL EFFECTIVE DATE: November 1, 2017

LEAF: 181.1

REVISION: 4

SUPERSEDING REVISION: 3

Issued in compliance with Order in Cases 15-E-0751 and 15-E-0082 dated 9/14/2017.

GENERAL INFORMATION**13. SERVICE CLASSIFICATION RIDERS (Continued)****RIDER N (Continued)****NET METERING AND VALUE STACK TARIFF FOR CUSTOMER-GENERATORS****REMOTE NET METERING AND COMMUNITY DISTRIBUTED GENERATION (Continued)****(B) Community Distributed Generation (Continued)****(1) Application by CDG Hosts**

The CDG Host shall designate in its initial application for CDG service the CDG Host Account and its associated CDG Satellite. The CDG Host must designate no fewer than ten CDG Satellite Accounts unless all of the CDG Satellite Accounts are located on the site of the same property as the CDG Host serving residential and/or non-residential customers. No more than 40 percent of the output of the CDG Host may serve CDG Satellites of 25 kW or greater; provided, however, that the CDG Host may treat each dwelling unit served indirectly in a multi-unit residential building as though it were a separate participant for determining whether the ten-CDG Satellite Account minimum and 40 percent output limit are reached. Each CDG Satellite Account must take a percentage of the output of the CDG Host's excess generation. The percentage must amount to at least 1,000 kWh annually but may not exceed the CDG Satellite Account's historic average annual kWh usage (or forecast usage if historic data is not available). The CDG Host, by submitting a completed application to the Company, is certifying that its project meets the PSC's eligibility requirements specified in its Order issued July 17, 2015, in Case 15-E-0082 and as may be revised thereafter.

The CDG Host must be a non-residential customer with farm waste, solar, wind, Micro-Hydro or fuel cell electric generating equipment. The CDG Host Account and all associated CDG Satellite Accounts must be located within the same NYISO zone and within the Company's service territory. A CDG Satellite Account shall have only one CDG Host Account. A CDG Satellite Account must be metered if the CDG Host Account is served under Grandfathered Net Metering, unless such CDG Host Account makes a one-time, irrevocable opt-in to the Value Stack Tariff. A CDG Satellite Account served by a non-Grandfathered Net Metering CDG Host Account may be unmetered subject to the following conditions: (1) the CDG Satellite Account receives monetary credits from a Phase One NEM CDG Host Account; (2) the CDG Satellite Account receives volumetric credits from a Phase One NEM CDG Host Account and has opted to be served under the Value Stack Tariff; or (3) the CDG Host Account and its Satellite Accounts will be served under the Value Stack Tariff.
