SECTION 6 – MISCELLANEOUS SERVICES

E. OPERATOR SERVICES – ALL SERVICE AREAS(cont'd)

1. Operator Services Definitions

1. Busy Verification

The operator, at the request of the customer, will determine the status of an exchange access line (e.g., conversation in progress) and report the status to the customer.

2. Busy Interrupt

The operator, at the request of the customer and being informed that an emergency exists, will interrupt conversation on the exchange access line and inform the called party that an attempt to place a call to that line is being made.

3. Operator Assisted Station to Station

A service whereby the caller places a non-Person to Person call with the assistance of an operator (live or automated).

4. Collect

A billing arrangement by which the charges for a call may be billed to the called party, provided the called party agrees to accept the charges.

5. Person to Person

An operator assisted call in which the person originating the call specifies a particular person to be reached, or a particular station, room number, department, or office to be reached. The calling party is responsible for identifying the party at the called station.

6. Operator Assisted Time and Charges

A service requested of the operator before a call begins. After completion of the call, the operator calls back and specifies the length of the call (in minutes) and the charge for the call.

7. Billed to Third Number

Operator assisted telephone call that can be billed to the party other than the calling and called party. The operator calls the third number for the party to accept the charges before the call can proceed.
