SERVICE CLASSIFICATION No. 7
Interruptible Transportation Service (Continued)
(Rate Codes: 710, 710A, 711, 720, 721, 469)

Special Provisions (continued):

1. Applicable to Interruptible Transportation for Large Volume Non-Residential Gas Customers (continued)

o) Non-Compliance Charges for Equipment Failure and/or Inadequate Fuel on Hand (continued):

Customers that receive notice from the Company regarding inadequate standby fuel and/or equipment failure that fail to supply the Company with proof that the violation has been corrected will be subject to a non-compliance charge per therm equal to the greater of 130% of the No. 2 oil gas equivalent price (as published in the Journal of Commerce NY barge consumer No. 2 oil) or 130% of their otherwise applicable variable sales rate. For Customers taking Interruptible Transportation service, the non-compliance charges will be 130% of the applicable month's posted Interruptible Transportation Rate, SC 7. Such non-compliance charge, which will be subject to all applicable utility taxes and surcharges, will be in lieu of the otherwise applicable variable rate and will be effective for the billing period during which non-compliance becomes known, and for any subsequent periods until the Customer provides the Company with satisfactory proof that the violation has been corrected. Customers subject to this higher variable rate continue to be subject to all terms and conditions of this Service Classification. If a Customer's action during a specific interruption results in both non-compliance and Unauthorized Use charges being warranted, only the Unauthorized Use charges will be billed.

p) Communications Protocol

The Communications Protocols for all customers served under this service classification are described in the Company's Gas Transportation Operating Procedures Manual, Section VII, as filed with the Public Service Commission. Customers will be required to provide affidavits confirming that they have alternative fuel supply contracts in place for the upcoming winter heating season as described in the Company's Gas Transportation Operating Procedures Manual, Section VII, as filed with the Public Service Commission.

q) Termination:

Notwithstanding any other provisions or requirements of this Service Classification, if a Customer fails to maintain the dual-fuel equipment or associated control devices in proper working order; or interferes in any manner with the operation of such devices; or interferes with or hinders in any manner the Company's rights of access, metering and inspection; or otherwise violates any provision of this Service Classification, the Company will have the absolute right to terminate the gas service provided for hereunder. Any Customer terminated for non-compliance with this Service Classification will not be permitted to return to this Rate Schedule until the end of the following winter season.
