## SECTION 3 - CONNECTION CHARGES

### 3.6 CRITICAL FACILITIES ADMINISTRATION (CFA) SERVICE (cont'd)

#### 2. Customer Obligations

Customers participating under the Critical Facilities Administration program will be required to:

- a. Identify critical facilities by enrolling circuits in the federal Telecommunications Service Priority program, and demonstrating the sponsorship of a federal agency supporting the designation of those circuits as qualifying under the federal Telecommunications Service Priority program. Such circuits will be referred to as "qualifying circuits."
- b. Subscribe to the Critical Facilities Administration service offered by their carrier, and identify which qualifying circuits it wishes to enroll in the service. Such circuits will be referred to as "subscribed circuits."

#### 3. Carrier Obligations

Facilities-based carriers will be obligated to identify the physical path of each subscribed circuit as follows:

- a. Physical path information will be provided by reference to the latitude and longitude coordinates of suitable points along the circuit's path (e.g., cable entrances to buildings, manholes, riser poles, crossboxes, carrier equipment cabinets, and other circuit access points in the outside plant of the carrier) so as to allow the customer to ascertain with a reasonable degree of accuracy the actual physical path of each subscribed circuit.
- b. Physical path information for newly provisioned subscribed circuits is to be available to the customer within 5 business days after the circuit has been installed, and within 15 business days for existing, in-place subscribed circuits.
- c. Any planned moves, changes, or rearrangements that affect the physical path of a subscribed circuit are to be communicated at least 24 hours in advance to the customer, and information related to a move, change, or rearrangement that was as a result of unplanned activity is to be provided within 24 hours of the change.
