New York P.S.C. No. 2 – Communications
Effective: August 18, 2017

Leaf 17
Revision: 0
Superseding Revision:

SECTION 1 – DEFINITIONS AND ABBREVIATIONS (Cont'd)

1.2 Definitions of Terms (Cont'd)

Switch - The term “switch” denotes an electronic device that is used to provide circuit sharing, routing, and control.

Tandem Switch - See Access Tandem.

TDM - Time Division Multiplexing – a method of transmitting and receiving voice signals over the Public Switched Telephone Network (PSTN).

Terminal Equipment - Telecommunications devices, apparatus and associated wiring on an End User's or Customer's Premises.

Terminating Direction - The use of Switched Access Service for the completion of calls from a Customer's Point of Presence to an End User Premises.

Timely Payment - A payment on a Customer's account made on or before the due date.

Toll VoIP-PSTN Traffic - The term Toll VoIP-PSTN Traffic denotes a Customer's interexchange voice traffic exchanged with the Company in Time Division Multiplexing format over PSTN facilities, which originates and/or terminates in Internet Protocol (IP) format. Toll VoIP-PSTN Traffic originates and /or terminates in IP format when it originates from and/or terminates to an End User of a service that requires IP-compatible customer premises equipment.

Trunk - A physical or virtual communications path connecting two switching systems in a network, used in the establishment of an end-to-end connection. A trunk is capable of transmitting voice-frequency signals, although this definition does not limit the type of information that may be transmitted.

Trunk Group - A set of trunks, which are traffic engineered as a unit for the establishment of connections between switching systems in which all of the communications paths are interchangeable.

Underlying Carrier – Any provider of intrastate telecommunications services from whom Company acquires facilities or services that it utilizes to provide Company services to Customers and End Users.

V & H Coordinates - Geographic points which define the originating and terminating points of a call in mathematical terms so that the airline mileage of the call may be determined. Call mileage may be used for the purpose of rating calls.
