New York P.S.C. No. 2 – Communications
Effective: August 18, 2017

Leaf 15
Revision: 0
Superseding Revision:

SECTION 1 – DEFINITIONS AND ABBREVIATIONS (Cont'd)

1.2 Definitions of Terms (Cont'd)

Originating Direction - The use of Switched Access Service for the origination of calls from an End User's Premises to a Customer's Point of Presence.

Other Common Carrier – The term “other common carrier” denotes a specialized or other type of common carrier authorized by the Federal Communications Commission to provide domestic or international communications service.

PIC Authorization - A Customer's or End User's selection of a PIC that meets the requirements of federal and state law.

PIC - Primary Interexchange Carrier. The interexchange carrier (IXC) designated by the End User Customer as its first routing choice and primary overflow carrier for routing of 1+ direct dialed and operator assisted non-local calls.

Private Line - A service that provides dedicated path between one or more Customer Premises.

Point of Presence or POP - The physical location associated with the Customer's communication and switching systems, or any other location specified by the Customer for interconnection of Switched Access services to facilities owned, controlled, or designated by that Customer.

Point of Presence - Location where the Customer maintains a facility for purposes of interconnecting to the Company's Network.

Point of Termination - The point of demarcation within a Customer or End User Premises at which the Company's responsibility for the provision of access service ends. The point of demarcation is the point of interconnection between Company communications facilities and Customer-provided or End User-provided facilities as defined in Part 68 of the Federal Communications Commission's Rules and Regulations.

Premises - The space occupied by a Customer or Authorized User in a building or buildings or on contiguous property (except railroad rights-of-way, etc.).

Presubscription - An arrangement whereby an End User may select and designate to the Company an Interexchange Carrier (IXC) or Carriers it wishes to access, without an Access Code, for completing both intraLATA toll calls and/or interLATA calls. The selected IXC(s) are referred to as the End User's Primary Interexchange Carrier (PIC).
