Effective: August 18, 2017

Leaf 31
Revision: 0
Superseding Revision:

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.3 Jurisdictional Report Requirements (Cont'd)

- A. Jurisdictional Reports (Cont'd)
 - 1. Percent Interstate Usage (PIU) (Cont'd)
 - (b) (Cont'd)

The Customer shall compute the PIU using the following formula (rounded to a whole percentage).

Total Interstate Originating Minutes	+	Total Interstate Terminating Minutes	
Total Originating Minutes	+	Total Terminating Minutes	

(c) When the Customer computes the PIU it shall subtract the developed percentage from 100 and the difference is the percent intrastate usage. The sum of the interstate and intrastate percentages shall equal 100 percent.

2. For multiline hunt group or trunk group arrangements where either the interstate or the intrastate charges are based on measured usage, the interstate FGA and/or FGB information reported as set forth in 1 preceding will be used to determine the charges as follows:

(a) For all groups, the number of access minutes (either the measured minutes or the assumed minutes) for a group will be multiplied by the projected interstate percentage to develop the interstate access minutes. The number of access minutes for the group minus the projected interstate access minutes for the group will be the developed intrastate access minutes.

3. When a Customer initially orders FGD, the Customer shall state in its order the Percentage Interstate Usage (PIU). When a Customer orders FGD, 500, 8XX Toll Free or 900, the Company, where the jurisdiction can be determined from the call detail, will determine the interstate percentage as follows. For originating access minutes, the interstate percentage will be developed on a monthly basis by end office when the FGD, 500, 8XX Toll Free or 900 access minutes are measured by dividing the measured interstate originating access minutes (the access minutes where the calling number is in one state and the called number is in another state) by the total originating access minutes when the call detail is adequate to determine the appropriate jurisdiction. When originating call details are insufficient to determine the jurisdiction for the call, the Customer shall supply the projected interstate percentage or authorize the Company to use the Company developed percentage. In the event the Customer does not supply the projected PIU and the Company does not have the sufficient call detail to develop a PIU, than a PIU of 50 percent shall be used by the Company as the interstate percentage for such call detail.
