14.1 APPLICATION FOR NEW RESIDENTIAL CONSTRUCTION (Continued)

voltage line of the intended activity, such notification to be submitted at least five normal work days before the activity is to be performed. The owner or person responsible for the high-voltage line shall perform all necessary precautionary actions, and the employer, contractor or other person responsible for the activity shall be responsible for all costs of such precautionary actions. Under no circumstances shall activities requiring precautionary actions be undertaken before such precautionary actions have been completed.

The Act also requires, but is not limited to the following:

- Educate workers of the inherent dangers in working near high-voltage lines;
 - All high-voltage lines shall be considered energized until assurance has been given that they have been de-energized and grounded at the work site;
- And
- Warning signs should be posted near high-voltage lines with the following language: "Danger Unlawful to Operate Any Part of This Equipment within 20-Feet of High-Voltage Lines."

By adhering to the Act, you protect the safety of your employees and the public. If you fail to comply with the requirements under the Act, you could be subject to certain fines and penalties.

Buildings of Public Assembly

Buildings of Public Assembly are buildings that normally admit the public and have capacity for 75 or more people. This would include, but is not limited to, schools, hospitals, nursing homes, licensed day care centers, churches, restaurants, theatres, department stores, factories, etc. (Office and Apartment buildings are excluded unless they have a community/meeting room, auditorium or cafeteria that can accommodate 75 or more people).

Residential-Use Affidavit

I certify to O&R that the premise is a legal _____ (number of dwelling units constructed or to be constructed pursuant to Department of Buildings permit number _____) family building.

As such, O&R has informed me that if I rent or sell those dwelling units to more than the same number of tenants or buyers:

1. O&R's Schedule for Electric Service, Public Service Commission (PSC) No. 2 (the "tariff"), General Information Section 8.A, requires that a separate meter be used to measure electric service supplied to an apartment. Direct metering of each tenant's residential electric service is required by order of the PSC in premises wired after January 1, 1977, except as may be permitted by PSC regulations on sub-metering or pursuant to a waiver from the PSC.
2. "Shared Meter" condition, as defined by Section 52 of the Public Service Law, may not be created with respect to the electric and/or gas service. Shared meter conditions occur when service to one tenant includes service used by common area equipment or in another dwelling unit. Such conditions constitute violations of the Public Service Law and must be remedied as required by law. When the utility determines that a shared meter condition exists, the owner of the premise must correct the condition (with limited exceptions) and pay for all shared energy use for up to the past six years.
3. The owner may also be liable for a penalty.

NOTICE:

O&R electric and gas service installation work is provided at no charge. However O&R will require contributions in aid of construction for construction work that exceeds allowances as provided for in its filed tariff. In addition a security deposit may be requested prior to activation of service in accordance with our customer service procedures. Construction contributions, security deposits or any other prices quoted by O&R are subject to change without notice.
