

Effective Date: 04/27/2017

PSC No: 19 - Electricity
Rochester Gas and Electric Corporation
Initial Effective Date: April 27, 2017
Issued in compliance with Order in Case Nos. 15-E-0751 and 15-E-0082, dated March 9, 2017.

Leaf No. 160.39.11
Revision: 9
Superseding Revision: 8

GENERAL INFORMATION

20. Micro-Hydroelectric Service Option (Cont'd)

A. Residential (Cont'd)

6. Billing (Cont'd)

Upon the Company's determination that the customer has taken service under this Section while in violation of the conditions of service set forth herein, the customer shall forfeit any positive balance accrued during the annual period in which the violation occurred.

7. Costs

Pursuant to the Standard Interconnection Requirements set forth within Addendum-SIR of P.S.C. No.19, customers are responsible for providing all meter boxes and sockets. In the event that the Company determines that it is necessary to install a dedicated transformer or transformers, or other equipment to protect the safety and adequacy of electric service provided to other customers, the customer-generator shall pay for the cost of installing the transformer or transformers, or other equipment up to a maximum amount of \$350.00. The Company shall not charge any additional micro-hydroelectric electric specific interconnection costs incurred by the Company other than \$350.00 for dedicated transformers, or other equipment, if necessary. Customers are responsible for any costs related to the installation of their micro-hydroelectric generating equipment. Notwithstanding the provisions herein, residential micro-hydroelectric electric customers are responsible for meeting all otherwise applicable provisions and requirements of P.S.C. No. 19.

Residential customers who own or operate a farm operation (as defined by Agriculture and Markets Law §301(11)), and locate micro-hydroelectric generating equipment on property he or she owns or leases, is eligible for remote net-metering as set forth in Rule 20.B.8.A.II.

B. Non-Residential

1. Applicable To

Any Non-Residential Customer who owns or operates micro-hydroelectric generating equipment located and used at his or her premises. Micro-hydroelectric generating equipment is defined as a hydroelectric system with a rated capacity of not more than 2,000kW; that is manufactured, installed and operated in accordance with applicable government and industry standards. Such system must be connected to the customer's electric system and operated in accordance with applicable government and industry standards, that is connected to the electric system and operated in conjunction with an electric Company's transmission and distribution facilities, and that is operated in compliance with any standards and requirements established under this section. A customer may include energy storage equipment when submitting an application for net metering pursuant to this Rule.
