GENERAL INFORMATION

16. Farm Waste Electric Generating System Option (Cont'd)

5. Interconnection

Customers electing service under this provision must operate in compliance with standards and requirements set forth in the Distributed Generation Interconnection Requirements set forth within Addendum SIR of this tariff. In addition, customers must execute the New York State Standardized Contract For Interconnection of New Distributed Generation Units with capacity of 5 MW or less connected in parallel with Utility Distribution Systems ("SIR Contract"), as contained with Addendum-SIR of this tariff.

6. Metering

For a residential net metered customer and non-residential net metered customer with an installation on or prior to March 9, 2017, the Company shall install metering appropriate for the customer's service classification that enables the Company to measure the electricity delivered to the customer and measure the electricity supplied by the customer to the Company. Where the Company determines that a second meter should be installed, no additional costs shall be billed to the customer. When a second meter is requested by the customer that is not required by the Company, the customer shall be responsible for the cost of the meter, the installation, and any additional costs. For a net metered customer with an installation after March 9, 2017, customer shall refer to Rule 26, Value of Distributed Energy Resources (VDER) for metering requirements.
