PSC NO: 10 – ElectricityLeaf: 245.1Consolidated Edison Company of New York, Inc.Revision: 0Initial Effective Date: 04/27/2017Superseding Revision:Issued in compliance with Order in Cases 15-E-0751 and 15-E-0082 dated 03/09/2017Superseding Revision:

GENERAL RULES

24. Service Classification Riders (Available on Request) – Continued

RIDER R – Net Metering for Customer-Generators – Continued

A. Applicability – Continued

Value Stack Tariff

The Value Stack Tariff is applicable to Customers not eligible for Grandfathered Net Metering or Phase One NEM; provided, however, that Customers served under either Grandfathered Net Metering or Phase One NEM will be provided a one-time, irrevocable opt-in to the Value Stack Tariff when it becomes available.

The Company will process requests for interconnection under this Rider in accordance with the SIR. The Company reserves the right to decline requests from generators to interconnect to the distribution network system when the Company deems it necessary to protect its system, facilities, or other Customers.

If there is a change in account name for the premises on which the generator is located (i.e., an RNM Host Account, a CDG Host Account, or the account of a Customer with on-site generation that does not participate in RNM or CDG), the successor Customer will be eligible for service under this Rider, subject to the Section G charges and credits applicable to its predecessor, for the remaining term of service. If there is a Customer-initiated change in the generating equipment that requires a new standardized interconnection request to be filed with the Company (e.g., due to an increase in the nameplate rating or replacement of the generating facility) or a change in the type of net metering (e.g., from CDG to RNM or from RNM to a single net-metered account), the account will be subject to the applicable terms and conditions of service in effect at the time of such change.
