## SERVICE CLASSIFICATION NO. 12 (Continued)

### 2. CHARACTER OF SERVICE

Service shall be continuous and available throughout the Company's service area subject to the availability of adequate metering and in appropriate cases communication equipment. Service is for all purposes for which electricity is required by the customer on the customer's Premises where such requirements are delivered at one point and are metered with a single meter (with exceptions as noted in Rule 25.1.4.3 of the Tariff). The Company shall determine the appropriate voltage delivery level at the customer's Premises. Such delivery may occur at secondary (<2.2 kV), primary (2.2 -15 kV), subtransmission (22-50 kV), or transmission (>60 kV). All service is at 60 Hertz nominal.

### 3. DEFINITIONS

The following definitions shall apply to service provided under this Service Classification No. 12:

- 3.1 Affiliated Customer: A customer that either directly or indirectly owns, is owned by, or is under common ownership with other customers receiving electric service from the Company.
- 3.2 Contestable Customer: A customer that:
  - (a) has a financially viable competitive alternative for all or part of its present or future loads supplied by the Company, including deliveries by the Company of load served by NYPA, at Standard Tariff Rates, including the option to forego the construction or installation of new facilities or equipment; and
  - (b) is reasonably expected by the Company, in its sole judgment, to select this alternative if the Company does not provide an economically attractive contract offer; and
  - (c) is reasonably expected by the Company to provide greater net revenues to the Company pursuant to a Customer Service Agreement authorized by this Service Classification No. 12, than it would in the absence of this Service Classification No. 12.
- 3.3 Manufacturing Customer: A customer with a North American Industry Classification System ("NAICS") code of 31, 32 or 33. NAICS codes will be assigned according to the activity at the facility in the Company's service territory.
- 3.4 Energy Intensive Manufacturing Customer: A customer with an NAICS code of 311 (food manufacturing), 326 (rubber and plastics), 332 (metal fabrication), 334 or 335 (electronics) or 336 (transportation equipment). NAICS codes will be assigned according to the activity at the facility in the Company's service territory.
- 3.5 Service Sector Customer: A customer that has an NAICS code of 42 (wholesale trade), 493 (regional warehousing or storage), 541 (professional, scientific or technical services) or 561 (administrative or support services) or 812921 (Photofinishing Laboratories, except one hour). NAICS codes will be assigned according to the activity at the facility in the Company's service territory.
- 3.6 Qualifying Customer: A customer qualifying for service under this Service Classification No.12 by meeting the requirements of Section 4 of this Service Classification No. 12.
