### GENERAL INFORMATION

- B. Unless a Customer does not have access to the meter or the Customer will be unable to obtain a reliable reading, the Company will, at the time of any unsuccessful attempt to obtain an actual reading, leave at the premises or mail the Customer a meter reading card.
- C. When the Company is unable to obtain actual meter reading or if there is cause to believe an actual read is wrong, it may render an estimated bill. The estimated bill will be calculated in accordance with an established formula which takes into account the best available data for estimating the Customer's usage.
- D. If, after bills are estimated for a period of two consecutive months, the Company is unable to obtain an actual meter reading, "no access notices" will be provided at the next billing cycle to the individual who controls access to the meter. In cases where the access controller is not the Customer, a copy of the notice must be sent to the Customer.

A no-access charge will be added to the third and each successive notice as specified in Leaf No. 51, Miscellaneous Service Fees. The Company at its discretion may suspend temporarily the issuance of the no-access charge if a legitimate reason for non-access is given by the access controller.
