SERVICE CLASSIFICATION NO. 1 (Continued)

2. Pole/Standard Charge

The monthly pole or standard charges per unit are presented below in Table 3. The pole/standard charges are determined by the type of pole or standard and its height.

When suitable poles are available on Company's existing secondary distribution circuits no additional charge will be made for a lighting attachment to such poles for lamps served under this service classification.

When installation of additional poles and overhead secondary supply circuits are required, Company will install, own and maintain necessary poles, overhead wires, guys and anchors, but not more than one pole per lamp and luminaire served hereunder. Customer shall pay applicable monthly facility charges as stated in RATE.

Extension of the electric distribution system for the purpose of providing appropriate electric service to the applicable facilities will comply with General Provision – Extension of Company Distribution Facilities as defined in General Information, Section IV.
